A Message From The Headteacher

I am delighted that you are considering the Prestatyn High School Sixth Form and I hope that the information you will receive as part of our recruitment process will not only give you essential practical advice, but will also provide you with a clear picture of life in the Sixth Form.

Your choice of where you are to study at Post 16, and which courses you want to take, is one of the most important decisions you will make in your life; it can help to determine your choice of university, your career and ultimately your future. We will help you, push you, guide you and nurture your talents so that you achieve your goals, reach your potential and have the highest aspirations possible.

We have experience of getting students into the best universities and the best courses over the last sixty years. This is a great 6th Form and we are rapidly improving all aspects of our provision further. We are exceptionally proud of the fact that based on last year's results we are one of the most improved schools and 6th Forms in Wales. 70% of all A-levels and BTECs achieved a C grade or above which is a testament to the hard work, skills and determination of the staff and students alike. My focus is to continue to make Prestatyn the best educational provider in the country. We will work tirelessly to make this happen and we would like you to join us on this journey.

At Prestatyn, we have an exceptionally wide-ranging curriculum offer, providing courses that are suitable for all, no matter what your interests. We have established a national reputation for our vocational qualifications and it is not surprising that they are extremely popular.

In all our departments, from Maths to Biology, Economics to Literature, we have teams of excellent teachers who combine years of experience with the highest qualifications. So they are ideally suited to help you achieve your goals.

The Governors and teachers of the school are particularly proud of our deserved reputation as a caring community. We never forget that we are here for the benefit of the students. The quality of education is always about the quality of staff and, if you join us, you will have the benefit of two hugely experienced Post 16 Leaders, Mr Vernon and Ms Reed, supported by Mrs Jacobsen and an outstanding pastoral

teaching and admin team. In addition, our form tutors have vast experience in helping students with their UCAS applications. We treat every student as an individual and as someone to be valued.

We have high expectations and consequently expect full commitment from all our students. If you work as hard as you can then we have the experience and the ability to guide you to the best possible placement in Higher Education. It is our proud boast that everyone who works hard to go to university can be found a place. Students from recent years are currently studying for degree courses at universities such as Cambridge, Manchester, Liverpool, Cardiff, Leeds, Bristol and other Russell Group Universities. But we are not complacent and we are always trying to improve. We recognise that your success over the next two years will help to determine your future. Parents always give strong support in this area and this is matched by the enthusiasm of the students and the hard work and commitment of the tutors. Students from our current Year 13 are applying to Oxford and Cambridge Universities for a variety of courses, while medicine and dentistry are popular choices for many of our most able students. In addition to the usual support, these particular students are receiving extra help as part of the SEREN network. The Seren network has been set up by the Welsh Government to support the most able students in a series of 'Hubs' around Wales.

Of course, while results are vitally important to us at the Prestatyn Sixth Form, we also provide our Post 16 students with a very wide range of additional opportunities and experiences. So, whether you are interested in theatre, sport, music, movies, media, debating, charity work or trips abroad there will be something on offer for you.

No written information can give the answer to all of your questions, so please do not hesitate to contact us if you have any queries. If you choose us for your Post 16 education, rest assured that you will be well-supported as you join a thriving, vibrant and successful centre. We have a wealth of Post-16 experience at PHS and a long record of outstanding success to help you achieve your potential and we are confident that you will find it an enjoyable and rewarding experience. We look forward to welcoming you in the near future.

Prestatyn High School

Next Steps

careerswales.com

notgoingtouni.co.uk

ucas.ac.uk

You will soon be completing your compulsory education and be choosing what to do next.

YOUR CHOICES ARE:

- A job involving further training, such as an apprenticeship or day release to college
- A job without training
- A full-time course at a college
- A full-time course in the Sixth Form
- Combination of some of these elements

You will get lots of support and guidance from tutors in school and college, personal tutors and Careers Wales who are all there to help you make the right choices, but it is up to you to ask!

You can also find out a lot for yourself by checking school, college, university and other websites and publications such as prospectuses and course guides.

In September 2018 you will have the choice of Advanced, Advanced Supplementary, General and Vocational Level 3 and other courses available in the Prestatyn High School Sixth form. In addition to these courses, your programmes of study may also include GCSE Maths & English and the Welsh Baccalaureate.

The choices outlined in this prospectus give a basic explanation of the course and qualifications available.

You should normally have achieved 5 GCSEs at grades A* - C or Level 2 equivalent qualifications before being accepted on AS / Level 3 courses, but do ask your tutor. Students wishing to study A levels need to have passed Maths and English GCSE and for some subjects have a 'B' or Merit grade if the subject is studied at level 2.

All cases can be discussed on an individual basis, so students must be prepared to meet with staff, especially on GCSE results day.

Please note that all courses are offered subject to there being a viable number of learners.

Why choose Prestatyn High School?

Vision

Prestatyn High School is a significant provider of further education for 16-19 year olds in Prestatyn, Rhyl and the surrounding areas.

We are proud that we can offer the widest range of courses that equip students with the qualifications and skills for a successful future in higher education and employment. We provide the best opportunities for a wide range of students.

Values

Prestatyn High School has high expectations of students and staff so that opportunity, progression and success can be achieved. We challenge and support students in all aspects of their sixth form life to ensure they do their best and fulfil our expectations.

Commitment

- We commit to continuously improve the quality of learning by excellent teaching.
- We commit to bringing equality and fairness to all aspects of sixth form life.
- We commit to help you plan your programme of study and help you plan for your future.
- We commit to monitor your attendance and regularly review your progress in each subject area.
- We commit to liaise with your family, send them regular reports and invite them to student review evenings.

We have a wide choice of general and vocational subjects available so you can choose the combination that suits your personal situation.

We have highly qualified teachers and lecturers that specialise in their subject areas.

There are study areas for you to use outside the classroom with up to date technology, a library and other work areas with PCs and internet access. Well equipped laboratories, workshops and computer suites support learning. There are social areas for times between lessons. We offer excellent support and guidance to our students provided by specialist staff and we have excellent careers advice provided by Careers Wales.

The facilities in the school are of a high standard to ensure that the 6th form experience is the best it can be for both students and teachers.

Life in the Sixth Form

As well as being able to choose from a much wider range of subject choices in Prestatyn High School, you will also be able to involve yourself in the whole Sixth Form 'experience'.

There are a whole variety of activities, clubs and opportunities to do voluntary work in school or college and in the local community; this will help you to develop your wider skills and competencies to build your CV.

Curriculum Enrichment

There is more to learning in Prestatyn High School than just through the courses you study. The curriculum enrichment programme provides you with additional experiences to support your development and to help you on the next stage of your journey. You will have many opportunities to take part in aspects of the curriculum enrichment programme which might include some of the following, depending on circumstances at the time:

Enterprise Activities – gain practical experience of business and enterprise through a variety of challenges.

Debating – the aim is to encourage young people from diverse backgrounds in debate with teachers, lecturers and other adults about key social, ethical and cultural issues. The programme might also include taking part in a national competition.

UCAS Conventions – each year, many of our students are given the opportunity to visit a Higher Education Convention at an university to talk to representatives from up to 130 universities, colleges and other relevant organisations. The visit is part of a programme which also includes speakers from universities visiting Prestatyn High School during the year to give you the best possible chance of success when you submit your application.

Raising money for Charities – each year Prestatyn High School will engage in charity fundraising events and in recent years a significant amount of money has been raised for the benefit of various charities.

Course-related trips and visits – various trips and visits are arranged by subject departments during the year, designed to highlight some real-world examples of the course content for you and encourage greater understanding.

Sports & Physical Activity – there are many opportunities for you to take part in physical activities informally or through the 5 X 60 programme.

Supporting you and your learning

A range of courses to suit almost everyone, delivered in well equipped and modern facilities by experienced staff. Combined with its friendly and supportive community spirit, the school is a popular choice with post-16 students in the Prestatyn and Rhyl area.

Although your status will be changing from being a pupil to that of a student, you will still get a lot of support to help you progress.

Personal Support and Guidance

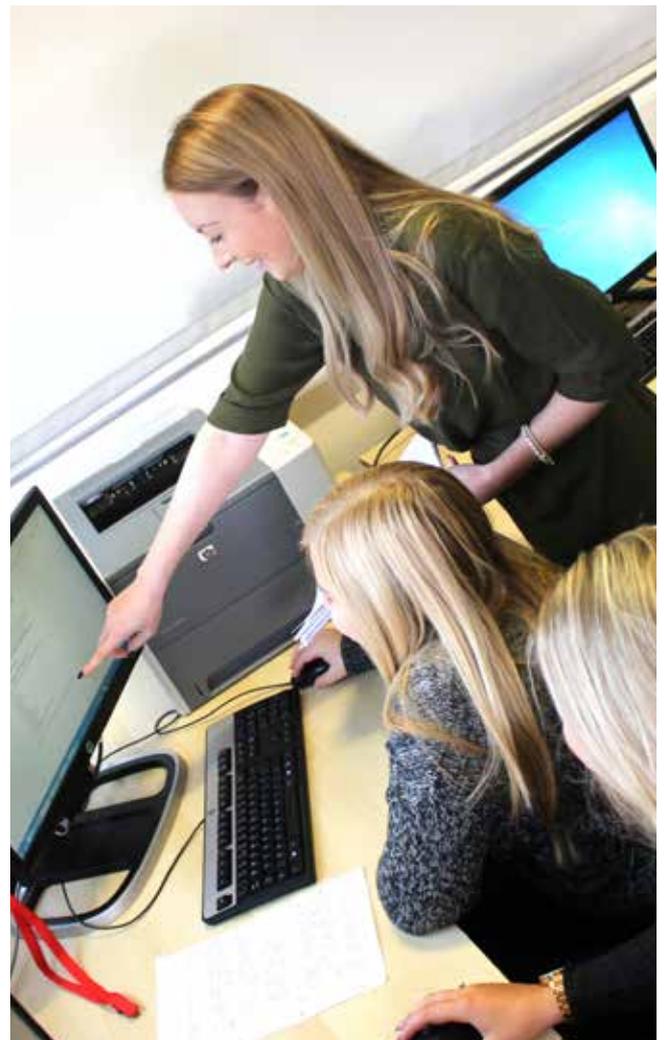

This will come primarily from your Personal Tutor with whom you will probably have daily contact, but you will also have help from specialist staff with particular experience of things such as the EMA (Educational Maintenance Allowance), UCAS (applying for University), interviews etc. Your Head of Sixth Form or dedicated Student Adviser will let you know who does what. You will also be able to access confidential specialist support if you have any more personal, health or housing issues. Your Personal Tutor can help you access this.

Work Experience

Your work experience placement give you an opportunity to make an application for a 'job', present yourself in a favourable light, demonstrate that you are a good timekeeper and a whole range of other skills including working on your own and as a member of a team. A good work placement can also mean another good reference!

Career Advice and Guidance

You will be able to continue to get expert advice from your specialist Careers Wales adviser in school. Normally you will make arrangements for meetings and advice sessions through your Personal Tutor or Head of Sixth Form or dedicated Student Adviser. It is important to log all your meetings in your personal records on Careers Wales Online where you will build your CV or on unifrog.

Bagloriaeth Cymru Welsh Baccalaureate

The revised and more rigorous Welsh Baccalaureate is based on a Skills Challenge Certificate, which will be graded, and Supporting Qualifications. The primary aim is to enable learners to develop and demonstrate an understanding of and proficiency in essential and employability skills. The emphasis is on applied and purposeful learning and to provide opportunities for assessment in a range of real life contexts through three Challenge Briefs and an Individual Project. The qualification will help learners develop more complex skills, attributes and behaviours. It will provide experiences which will enable learners to be better prepared for their future destination, whether university, further training or employment.

The Advanced Welsh Baccalaureate Skills Challenge Certificate is a required course of study for all students in the Sixth Form.

Bagloriaeth Uwch Cymru

The Welsh Baccalaureate qualification is graded A* - E and attracts the equivalent UCAS points. It is included in offers from Universities across the UK, and is formal recognition that the experiences and skills gained are valuable when studying at degree level and beyond.

For more information on the Welsh Baccalaureate please visit www.welshbaccalaureate.org.uk and follow the link to the Qualifications Wales site.

Qualifications/Which Course?

The school offers GCSE, GCE (A or AS Levels), IVET (such as BTEC and City & Guilds). IVET courses offer a general introduction to vocational areas and can be studied in schools and colleges. All qualifications are now measured on a single scale so that they are equivalent. This method of measuring performance ensures that qualifications of all types, at the same level, are recognised as qualifications having the same status and value.

Level 2 Threshold

Qualifications equivalent in achievement to 5 GCSE grades A* – C.

Level 2 Threshold 'Plus' Threshold

Qualifications equivalent in achievement to 5 GCSE grades A* – C including English and Mathematics.

Level 3 Threshold

Qualifications equivalent in achievement to 2 A Levels.

Level 3 'Certificate' is equivalent in achievement to 1 AS Level.

Level 3 'Subsidiary Diploma' is equivalent in achievement to 1 A Level.

Level 3 'Diploma' is equivalent in achievement to 2 A Levels.

To progress onto Level 3 courses it is expected that you will have achieved 100% of the Level 2 threshold. Be aware also that some subjects may also require other specific levels of achievement in GCSE or IVET to progress to Level 3 study in them. CVET courses have different entry requirements.

If you have not achieved a grade C in Mathematics or English GCSE, you must retake the qualification to continue. Your school / college will advise you how you can do this. All qualifications at Level 3 or above have an agreed UCAS point tariff which is used for easy comparison between qualifications and grades achieved in them:

Qualification Grades and UCAS Tariff Points			UCAS Tariff Points
Level 3 Subsidiary Diploma	GCE A Level and AVCE	GCE AS Level and AS VCE	
Distinction*	A*		56
DistinctionA			48
	B		40
MeritC			32
	D		24
		A	20
Pass	EB		16
		C	12
		D	10
		E	6

The best advice, probably, would be:

• Choose subjects you will enjoy

studying for the next 2 years.

• Choose subjects that you will need for your chosen job area or career.

• Choose subjects that you will need for higher level study at University.

Choosing subjects you will enjoy:

Find out as much as you can about all the subjects you are considering. There is information in this prospectus and a list of what is available. Speak to the subject teachers in school, go to the open day or evening events and attend taster sessions where they are offered. You can also find out a lot from the web about all subjects, and the specifications for AS, A2 and BTEC can be found on the web sites of the Awarding Bodies.

www.wjec.co.uk

www.edexcel.com/Pages/Home.aspx

web.aqa.org.uk/

Choosing a subject you need for your career pathway:

The Careers Wales website is a really good resource if you know what you want to do. You can carry out a career search and find out just about everything you need to know including pay, the number of vacancies and how to get into working in that area, even some of the subjects you need to have studied to apply.

www.careerswales.com

The Labour Market Intelligence (LMI) will tell you about employment prospects and where the jobs will be in the future.

Choosing subjects to access higher study:

Again there is much on the Careers Wales site so check that out first of all. The UCAS site is also excellent:

www.ucas.ac.uk

Searching for courses will tell you what is available and where it can be accessed, as well as other information such as costs. You will find courses with names you have not encountered before, but do check them out!

If you know which course is of interest to you then phone the Admissions Tutors, tell them what subjects you are thinking about and ask them what they think. They will be pleased to advise and you might just be surprised!

All the University contacts can be accessed at UCAS.

Once you have done your research, do talk to your teachers or Careers Advisors in school to see that what is on offer is what you really want to do.

COURSE

Animal Management

Qualification type: Level 3 Subsidiary Diploma

The Animal Management course will develop your knowledge and experience of the care and health of a range of animals both domestic and exotic. The course will be of interest to those who enjoy working on project-based assignments and wish to progress to further qualifications in the Animal Care & Management industry. Topics covered during the course might include animal biology, animal behaviour and welfare, animal handling and safe working, wildlife management, ecology & conservation.

Progression routes: Further study at higher education level. Career and employment opportunities include animal retail outlets, pet shops, genetics and various apprenticeships.

“

I want to do a degree in Animal Management and this will give me a good grounding in aspects of animal biology, behaviour and nutrition. The Animal Care department is amazing with more than 30 animals of all different species.

”

Esme Baker - Animal Management

“

Choosing art has opened up lots of new experiences, that I hope to take into the future.

”

Euan Miller Art

Art & Design

Qualification type: Level 3 GCE AS & GCE A

A course for motivated, creative students who wish to develop their own interest and skills in art, design and craft to further their career in a creative field, or gain entry to further education. It is essential to be self-motivated as much of the drawing and research work will take place outside of the classroom and students will be expected to visit art galleries, research artists, explore different techniques and independently develop their own ideas. You will have the opportunity to specialise in an area of Art and Design which most interests you e.g. Art, Craft and Design; Fine Art; Graphics; 3D Design; Textiles; Photography.

Progression routes: Further or higher education in areas of Art and Design such as Foundation or Degree course. Careers in advertising, architecture, product design, interior design, fashion, fine art, teaching, photography, retail, textiles design etc.

COURSE

Biology

Qualification type: Level 3 GCE AS & GCE A

Biology provides a wide breadth of knowledge which touches on aspects of a variety of topics. Specific topics covered include evolution, nutrition, digestion, respiration, ecology, reproduction and parasites. The study of biology will develop your appreciation and knowledge of these issues and their implications, as well as providing you with an insight into the living world. Biology encompasses the study of many exciting topics and is never far from the headlines, whether it is the sequencing of the Human Genome, the spread of AIDS, pollution due to human influences, the answer to food shortages. Biologists are concerned with all these issues.

Progression routes: Students may progress to a biologically related degree course but a science qualification also gives students skills which are relevant in careers such as law, computing, accounting, teaching and many others.

Chemistry

Qualification type: Level 3 GCE AS & GCE A

The A-Level in Chemistry provides students with a detailed understanding of the nature of matter, as well as the ways in which substances react together, sometimes to release energy. The course will appeal to all students who wish to gain a deeper knowledge and understanding of the concepts of chemistry and the way in which the principles of chemistry are applied in everyday life. Students will gain exciting knowledge about the constituents of substances that they use or buy every day. They will also consider new materials that may change the way in which we live. Key areas of theory work include the structure of the atom; reversible reactions; energy in reactions and rates of reactions.

Progression routes: Further study in Chemistry or science degree such as chemical engineering, medicine, dentistry, pharmacist, pharmacology, forensic science. Careers are wide and varied e.g. industrial chemist, health service professional, food scientist, the oil industry.

Computing

Qualification type: Level 3 GCE AS & GCE A

In this technological age, a study of how computers are used in the solution of a variety of problems is not only valuable to the student but also for the future wellbeing of the country. This course covers developments in computing such as computer crime and prevention, legal issues, computer programming, software and how different software applications are utilised to solve real problems. Computing is now seen as an essential part of education and job opportunities are amongst the highest of any subject.

Progression routes: A qualification in Computing demonstrates the ability to employ effective logic and creativity in problem solving. Computing is essential in many areas including software programming, games designing, process control, robotics, hardware engineering, network managing, electronics, civil engineering and so on.

Business Studies

Qualification type: Level 3 GCE AS & GCE A

The course content involves learning both how to run a business and the various roles that you can take on in a business. The course is completely exam based – ranging from short answer questions to case studies based on businesses. During the course, we aim to visit various businesses, engage with enterprise events, and encourage visiting business speakers. You are also encouraged to watch

“

I believe computer science to be one of the best qualifications you can have. It will put you in an advantageous position for any degree, apprenticeship or career which involves coding.

”

Daniel Pendergast - Computing ICT

“

The ICT department at PHS has modern computers with the latest software installed. The teachers are friendly and approachable and happily take time out to help you with any problems you may have.

”

Lauren Roberts
Head Girl - Computing

COURSE

Drama & Theatre Studies

Qualification type: Level 3 GCE AS & GCE A

This course provides the opportunity to develop your skills and understanding of the performing arts of dance, drama and music and gain insight into employment opportunities and the nature of the world of work within the performing arts industry.

You will have the opportunity to develop your interest and skills in a range of practical drama elements including acting, directing, costume, setting, mask and technical design during the course in addition to raising your awareness of plays and the development of the theatre by integrating theory and practical work, both individually and in groups.

Progression routes: Drama schools or universities such as Glyndwr, Manchester and Liverpool. Careers would include theatre actors, television actors, television presenters, writers, directors, producers, stage management, teaching, public speakers.

COURSE

Economics

Qualification type: Level 3 GCE AS & GCE A

Economics is for students who have an enquiring mind, an interest in what is happening in the economy, politics and business. The course is for students who want to develop the skills, qualities and attitudes that will equip them for the challenges, opportunities and responsibilities of adult and working life.

Specific topics studied during the course include the nature of economics, how markets work, market failure and government intervention, national income and economic growth, costs and profits, international economics, poverty and inequality, emerging and developing economies and the financial sector.

Progression routes: Economics develops excellent transferable skills, leading to a wide range of degree courses and employment opportunities including business management, accountancy, environmental economics, finance, statistical subjects, law, journalism and teaching.

English Literature

Qualification type: Level 3 GCE AS & GCE A

This is the course for you if you enjoy reading and expressing your opinions. The course provides you with an introduction to the discipline of advanced literary studies through reading widely, critically and independently, to make informed personal responses to a range of texts from each of the major literary genres of poetry, prose and drama. These skills are extended by developing and applying effectively your knowledge of literary analysis and evaluation in speech and writing and will deepen your understanding of the changing traditions of literature in English.

Progression routes: English Literature provides a foundation for further or higher education courses; or direct entry into employment. Its emphasis on fluent speech, fluid writing and clear thinking make it particularly advantageous for entry into the media, journalism, advertising, public relations, publishing, broadcasting or the law.

“

I highly recommend English Literature because it is an interesting and respected subject. All of the teachers are friendly and willing to help if you're struggling, and all the texts are engaging and exciting to study.

”

Niamh McCormack
English Literature

COURSE

Enterprise and Entrepreneurship

Qualification: Level 3- Subsidiary Diploma/Diploma

Do you want to study a practical 'hands-on' business course that will equip you with the skills and attributes to follow your business dreams? Well our Level 3 BTEC course could be for you. The specification is designed for learners who wish to know how to start up a business or social enterprise. Therefore, the mandatory units of the qualification reflect the essential aspects of starting and running a business. Optional units provide choice for specialisms in areas that will augment learners' understanding of enterprise.

Progression routes: At the end of the course you may wish to run and expand your micro-business, or go onto further study at University or you may wish to move into employment or a Higher Apprenticeship – all of these are possible and within your reach within a maximum of two years. Careers include; management, marketing, finance, accounting, banking, retailing, manufacturing and local government.

“

I would strongly recommend taking this course in the sixth form, it has developed my confidence and I am now prepared for higher education.

Reece James - Public Services

”

COURSE

“

Languages are my passion and I feel fully supported by the excellent MFL staff at PHS.

”

Freya Newman-Carty - French

French

Qualification type: Level 3 GCE AS & GCE A

This course will enable you to communicate confidently in French and provide a firm foundation for further study and / or practical use of the language. The course will encourage you to increase your interest and enthusiasm for language learning and develop your understanding of the language in a variety of contexts so that you are able to communicate confidently, clearly and effectively in French for a range of purposes. You will also develop an awareness and understanding of French contemporary society and its cultural background and heritage.

Progression routes: Further study of languages at degree level, combining it with a new language or another subject. Languages are valuable in a variety of careers, including teaching, engineering, media, interpreting, marketing, travel and tourism etc. Previous students have gone on to use their language skills in speech therapy, education, research, aviation industry and translating.

“

Geography is highly valued by universities as an A level choice. It has enabled me to appreciate the natural world around me. The specification is really exciting and you get to go out on fieldwork days. The teachers are really supportive and prepare interesting and engaging lessons.

”

Victoria Slugocki - Geography

COURSE

Geography

Qualification type: Level 3 GCE AS & GCE A

The Geography A level course is suited to students with an enquiring mind, it encompasses a broad range of skills developed through modules relating to plate tectonics, volcanism and earthquake activity, coastal processes and landforms and changing urban environments. Global governance of people and the oceans is a central theme studied at A2 along side water and carbon cycles, weather and climate and development in Sub-Saharan Africa. Students are expected to research, analyse, present and interpret data as well as plan fieldwork and data collection methods.

Progression routes: Degree courses in geography, conservation and environmental management, economics and geochemistry. Geographers are among the most employable due to the wide-ranging ICT, research, communication and analytical skills that they possess. Career opportunities include climatologist, environmental manager, urban planner, GIS specialist, cartographer, emergency management, teaching, demographer.

Health & Social Care

Qualification type: Level 3 Subsidiary Diploma

Health and Social Care is about looking after and promoting the well-being of the community and individuals. The subject helps you to develop an understanding of these areas and enables you to gain knowledge and competencies needed to work in Health and Social Care services. You will complete six units of coursework based in a vocational context and will gain practical experience from work placements. You will also gain an insight into real-life work based scenarios through visits and presentations by various guest speakers.

Progression routes: Further study at university or college including health and social care/management, nursing, paramedic practice and many more. Careers including nursing, midwifery, social work, counsellors, childcare and working with the elderly.

History

Qualification type: Level 3 GCE AS & GCE A

The History course focuses on two main historical periods, determined by individual centres from a list published by the examination board. Some of the units are based on source evaluation skills and others on application of knowledge through explanations and evaluative essays. The type of person who will succeed on this course will need to have good literacy skills, an inquisitive nature, an ability to critically analyse evidence and be able to write at length. Above all a passion for the subject and a high level of interest in history is crucial!

Progression routes: Study at degree level in History, Archaeology, Law, Politics, English or Museum Studies. History is also desirable in other subject areas because of the transferable skills it fosters such as research, analysis and extended essay writing. Possible careers include teaching, journalism, the civil service, police and the law amongst others.

COURSE

Hospitality

BTEC Level 3 subsidiary diploma equivalent to 1 A-level

This course is for students who have a passion for food, cooking, hospitality and catering. You will experience a range of activities centred on preparing, cooking, presenting and serving food. Units will focus on contemporary World food, Asian food and European food as well as presenting and serving food and drinks to guests, customer service and understanding the industry.

You will develop your knowledge, skills and understanding through practical tasks. No prior knowledge or skill of hospitality and catering is required. You will build up your cooking skills so they are a lifelong transferable skill that you will be able to use both for your employment and for leisure.

Progression routes: Further and higher education courses. Employment within one of the biggest worldwide employers as a chef, hotel/ restaurant manager, business owner, contract caterer, event manager, lecturer. There are hundreds of opportunities and careers available within this sector.

Law

Qualification type: Level 3 GCE AS & GCE A

This course will appeal if you have an interest in justice, ethics and topical legal issues or controversial moral debates.

The Law course offers a unique opportunity to identify legal problems and consider the consequences as judges often have to make decisions where there is a conflict between law and justice and law and morality. Some of the topics covered include the criminal process, trial procedures, courts and appeals, civil disputes, compensation, European law, human rights law.

Progression routes: FE/HE progress is a Law degree or a combination degree, for instance Law and Languages, Law and Accountancy, Law and Media. Career opportunities include solicitors, politics and government administration, the police and other services, immigration, publishing, journalism.

Mathematics

Qualification type: Level 3 GCE AS & GCE A

A course in Mathematics enables you to build and expand your problem solving skills, develop your analytical thinking and your ability to spot patterns and create logical arguments to solve problems. The course is designed for students who have enjoyed mathematics and have coped with the demands of higher tier GCSE. It will help you write structured solutions to complex problems; develop an understanding of algebra, trigonometry, differentiation and integration to name just four topics and use fundamental theories to solve applied problems in mechanics and statistics.

Progression routes: An A Level in Maths opens up many progression routes into both higher education and employment. The study of a degree course such as Mathematics, Engineering, Medicine, Accountancy and Architecture would benefit from an understanding of A Level Maths.

COURSE

Information Technology

Qualification type: Level 3 GCE AS & GCE A

Information Technology gives students the opportunity to study a subject which suits any combination of other courses.

You will gain experience and knowledge in the practical uses of information technology, particularly databases, spreadsheets, presentation software, animation and movie making software. You will also study the more theoretical uses of how businesses utilise information technology and how it affects society today.

Progression routes: ICT will help you in any chosen career but will also be an essential part of technology based courses. The list of professions is endless but will include architect, games designer, software engineer, systems analyst, webmaster, network manager.

Spanish

Qualification type: Level 3 GCE AS & GCE A

This course will enable you to communicate confidently in Spanish and provide a firm foundation for further study and / or practical use of the language. The course will encourage you to increase your interest and enthusiasm for language learning and develop your understanding of the language in a variety of contexts so that you are able to communicate confidently, clearly and effectively in Spanish for a range of purposes. You will also develop an awareness and understanding of Spanish contemporary society and its cultural background and heritage.

Progression routes: Further study of languages at degree level, combining it with a new language or another subject. Languages are valuable in a variety of careers, including teaching, business, media, interpreting, marketing, travel and tourism etc. Previous students have gone on to use their language skills in speech therapy, education, research, aviation industry and translating.

Music

Qualification type: Level 3 GCE AS & GCE A

The A Level Music course extends students' musical skills, knowledge and understanding and encourages participation in music making so that students will develop their skills in performance and composition. The course encourages the development of imagination, fosters creativity and by broadening experiences, promotes pupils' personal and social development. Students following this course will be able to perform at Grade 4/5 standard or equivalent, and many will have already gained knowledge, understanding and a range of musical skills through a study of music at GCSE and therefore will find this course an easy progression.

Progression routes: Further study of Music through a range of higher education courses or for direct entry into employment. Careers linked to music include composer, choreographer, conductor, cruise-ship entertainer, film music editor, music therapist, peripatetic music teacher, teacher and sound engineer.

“

I study Music, Dance and Drama A levels at Prestatyn High. I chose to study these subjects as I would like to go to university to study music or performing arts and go onto become a professional performer.

Katie Sheridan
Music, Dance and Drama

”

COURSE

Music Technology

Qualification type: Level 3 Subsidiary Diploma

The course is designed for students who have an aptitude and interest in producing, recording and arranging music. Using music creation software, students will undertake practical tasks in creating digital music. The essential role of computer-based systems in contemporary music production is explored in depth and learners are encouraged to focus on the practical benefits of a high level of familiarity with the technology and techniques involved.

Progression routes: Higher Education in Music Technology, studio engineering, sound recording, music management and publishing, music production, as well as work within DJ technologies and sound coordination of live events.

Product Design

Qualification type: Level 3 GCE AS & GCE A

Shape the future – a course in product design offers a unique opportunity for you to identify and solve real problems by designing and making products with creativity and originality. By combining design principles with technological practical skills, you will design products which work, that people can get their hands on, play with, admire, tell people about and ultimately want as their own.

The course will show you how to understand product design and innovation; use complex engineering skills, computer aided design and computer aided manufacture and create your own product from an original concept to a completed, functional item.

Progression routes: The Product Design course complements and a range of other courses such as art, physics or computing and can progress to a range of further and higher education studies and for future career paths. These include construction, architecture, industrial, environmental and interior design, product design and graphic design, art and design and fashion design.

COURSE

Performing Arts: Acting, Dance & Singing BTEC

Qualification type: Level 3 Subsidiary Diploma

There is a range of Performing Arts experiences for pupils to study at A-Level and to enjoy as extra curricular activities. We currently offer A-Level Drama and Dance which are facilitated by highly experienced teachers who have all worked professionally in the Performing Arts industry. There is a range of Performing Arts experiences for pupils to study at A-Level and to enjoy as extra curricular activities. We currently offer A-Level Drama and Dance which are facilitated by highly experienced teachers who have all worked professionally in the Performing Arts industry. Its main purpose is to allow learners to develop the core specialist knowledge, understanding and skills required by the sector, such as interpreting performance material and performing skills. The qualification consists of the following pathways: Acting, Dance, Musical Theatre & Physical Theatre. Each pathway has a common mandatory unit and its own distinctive mandatory unit, which cover the fundamentals identified by employers for each pathway, such as performing skills, the key principles of acting, dance techniques, different styles of physical theatre and musical theatre performance. Learners have some opportunity to study in more depth a range of pathways of their choice, including Acting, Dance, Musical Theatre, Physical Theatre and an Un-endorsed pathway supplemented by a range of optional units such as directing, singing techniques and different styles of dance including international dance.

Progression routes: The Performing Arts are a major part of the creative and cultural industries in the UK. It is the second largest sector after Design. Overall, the industry contributes £3.5 billion to the UK economy. The performing arts industry employs 148,030, with actors and entertainers accounting for 23 per cent of this total workforce. There are 5,480 businesses and 101,593 people working in the performing arts sector. The UK's creative industries have been identified as a strategic growth sector by the government.

Physics

Qualification type: Level 3 GCE AS & GCE A

The Physics course will help you to develop thinking and practical skills, and apply those in a variety of contexts. Your studies will take you from the very small (such as subatomic particles) to the very large (stars and the wider universe). The physics course develops students' understanding of the physical laws of our Universe and each student will gain better and more extensive problem solving skills as they work through theoretical problems. The course will challenge every student, but should inspire their interest as they cover some of the most fascinating concepts in science.

Progression routes: Physics is particularly suitable for those who wish to follow careers in pure or applied science, astrophysics, medical or nuclear physics, engineering, medicine etc.

COURSE

“

I have found RS to be incredibly interesting and it has greatly developed my understanding of the world around me, as well as encouraging my interest in philosophy and ethics. The course has inspired me to pursue Philosophy further at university.

”

Chloe Baldwin - Religious Education

Psychology

Qualification type: Level 3 GCE AS & GCE A

Humans are one of the most complex and fascinating animals in the world. The study of psychology enables us to gain a better understanding of our own behaviour, as well as that of other people. You will develop an understanding of different areas of psychology such as cognition, development, social and individual differences. You will also learn how topical issues such as eyewitness testimony, stress, memory and obedience can be better understood and managed by looking at them from different psychological perspectives.

Progression routes: Progression on to further of higher education. Psychology also has a wide range of applications in teaching, personnel work, business, counselling, sports management, marketing, the media and industry.

Public Services

Qualification type: Level 3 Subsidiary Diploma

This course aims to provide you with the skills you require to pursue a career in the Public Services, whether this is joining a uniformed armed force such as the Navy or Army, a rescue service such as the Fire Service, Ambulance Service, Police or a non-uniformed service such as the Probation Service. The course is also suitable for students looking at careers in outdoor education and the world of sport.

Progression routes: Progression to Further or Higher Education study in Public Services, Law and Criminology, Outdoor Education or direct employment in these careers.

Religious Studies

Qualification type: Level 3 GCE AS & GCE A

Religious Studies combines well with all other subject areas, developing knowledge of moral, ethical and cultural issues so important in today's multicultural society. The course explores the meaning of religion in the modern world, with a particular focus on the study of ethical debates, philosophy and the study of the Hindu faith. Religious Studies encourages students to think about the world we live in. The promotion of community cohesion is at the heart of the subject. We focus on learning from rather than simply learning about religion.

Progression routes: Religious Studies develops excellent transferable skills leading to a wide range of degree courses and career opportunities, particularly those that involve working with people. Former students have gone on to study in a wide range of fields, including medicine, journalism, events management, youth work, teaching, archaeology and social work.

COURSE

Science (Applied)

Qualification type: Level 3 Subsidiary Diploma

Applied Science offers a tailored qualification that focuses on aspects of knowledge required to gain employment within the various employment sectors. The course will enable you to develop the practical techniques necessary to pursue a career in the science industry. You will study the fundamentals of science, regulations and application used in the work of the science industry and you will complete scientific investigations. Topics studied also include Microbiology, Medical Physics and the Physiology of Human Body Systems.

Progression routes: Previous students have gone on to study nursing, teaching and science based courses at university. This qualification is becoming widely acknowledged by universities and is an ideal choice for students who wish to study a more vocational science based subject.

Sport

Qualification type: Level 3 Subsidiary Diploma

The sport and active leisure sector in the UK continues to grow as more people recognise the importance of a healthy lifestyle. This course provides an introduction to that sector and will enable you to build a career in sport within one of its occupational areas. Topics covered during the course include the principles of anatomy and physiology in sport, the physiology of exercise, assessing risk in sport, fitness testing for sport and exercise etc.

Progression routes: Teaching and instructing, sports development, exercise and fitness and many other careers within the sports and leisure industries.

Welsh Second Language

Level 3 GCE AS & GCE A

This course will enable you to continue to develop your skills in the Welsh language which will give you added confidence to use the language in all kinds of situations, be they formal or informal. Studying Welsh at this level will enable you to become a fluent Welsh speaker, able to enjoy both the Welsh and English cultures which exist in our modern communities. Bilingual communication skills are increasingly sought after by employers and the course will enable you to develop all aspects of this through the oral and written communication skills required and by the study of grammar, Welsh poetry and literature, film and other modern media which are central to the course.

Progression routes: Careers in the following: Welsh Assembly Government, Media, NHS, Police Force, Fire Service, the Public Sector.

COURSE

Sociology

Qualification type: Level 3 GCE AS & GCE A

Sociology is the study of people and society. Sociologists look for explanations of how and why societies are structured in certain ways and how individuals and groups who make up a society interpret and respond to these structures. You will consider how society helps to shape the way you view yourself and others and examine the causes and explanations of social problems like poverty, discrimination, crime and prejudice. Topics studied include families and households, the mass media, crime and deviance, social inequality.

Progression routes: Further study at degree level in Sociology, Criminology, Law, Education, Media Studies, Politics and Philosophy. This course also prepares you for a variety of careers including journalism, policing, nursing, education and local government.

Travel & Tourism

Level 3 Subsidiary Diploma

Despite recent setbacks, the travel and tourism industry continues to grow at a rapid pace. Recent years have seen a huge increase in the amount of travel undertaken by individuals for both leisure and business. This course will enable you to gain a sound foundation of the industry whilst developing business and employability skills which are essential for a career in the travel and tourism industry.

Progression routes: Progression routes include university or college to study Travel and Tourism Management, Event Management and Customer Service. Careers in retail travel, visitor attractions, transport and tour operators.

Advanced Welsh Baccalaureate

Level 3 GCE AS & GCE A

The Welsh Baccalaureate is an exciting qualification for students in Wales that adds a valuable new dimension to the subjects and courses already available for 14 to 19 year old students.

The course aims to:

- Enable candidates of all abilities to progress to further or higher education, training or employment
- Promote attitudes that will prepare candidates for lifelong learning
- Ensure that all candidates develop the skills that will equip them for progression in education, training and employment

Please see page 11 for more details.

“

Travel and Tourism is an appealing subject to study at AS/A Level. I thoroughly recommend choosing Travel and Tourism as a subject because it provides an all-round introduction to the Travel and Tourism sector. This subject is for students who wish to seek their future careers in one of its connected industries. For example, in the subject units we learn about visitor attractions, accommodation, jobs available and many more. Travel and Tourism is based on coursework, which I find to be helpful because it does not include the pressure of having to study for an exam.

”

Sandiyah Hutton
Travel and Tourism

Meet the Head Team

Having attended the school for seven amazing years, we can honestly say that the decision to come to the Prestatyn Sixth Form was and will always be one of the best decisions of our lives.

We can truly say with confidence that we have been equipped with the skills and experiences that we will need in the next stage of our education and the rest of our lives. We arrived as nervous, young children and have developed into confident and articulate young adults ready to take on the exciting challenges of university/work life in September.

As the Head Team, we are proud to have served as ambassadors of a school that we value so dearly; from hosting the annual Open House Evening to the Christmas Concert and Sixth Form Open Evening, we have grown in confidence and are now ready for the challenges ahead.

We, with the support of a fantastic team of Sixth Form students, have also played an important role in the academic lives of the younger students. Helping to make their transition from primary to secondary school as smooth and pleasant as possible and supporting them with any issues.

We also act as a point of contact between students and staff, something we consider to be a key factor in promoting success and wellbeing of all of our students.

We are immensely proud to be associated with a school which has an outstanding reputation and has had such a positive effect on the local community.

If you have any questions then please do not hesitate to contact us at our email address: headteam@prestatynhigh.co.uk. We will endeavour to reply as soon as possible.

If you have high aspirations and want the best, then choose the Prestatyn Sixth Form and join our team.

Thank you for considering our Sixth Form and we hope to see you soon,

Lauren Roberts

Sam Davidson

Joshua Hayward

Further Information

Changes & Cancellations

The details in this booklet are correct at the time of printing but may be subject to change due to the viability of group size and other unforeseen circumstances. Prestatyn High School reserves the right to cancel such courses where this is unavoidable.

Equal Opportunities

Prestatyn High School is committed to providing equal opportunities to all its students. We challenge discrimination in all its forms and monitor the effectiveness of our Equality and Diversity policies.

Additional Learning Needs

Prestatyn High School provides specialist advice and support to enable students with learning difficulties and / or disabilities to access our facilities and services and will make the transition from school to post 16 education as smooth as possible.

Child Protection

Prestatyn High School recognises its responsibilities for child protection and as such has a named senior member of staff responsible for child protection issues on each site. We aim to establish an environment for all students where they can feel safe and secure.

Resources Fee

An annual fee of £30 is required from each student to offset the cost of printing and other consumable materials used during the year.
