High School

My name is David North and I am Head of Year 11. I am proud to have been a part of this hard working and diligent year group's journey to what is now the final year of their GCSEs.

This is an important year for each and every student, with great potential for excellent results once again! As a Head of Year I am passionate about ensuring the highest standards possible are met in all areas of our students' school lives.

As a pastoral team we offer our students the guidance and support to allow them to excel and reach their full potential academically, while also educating and guiding them to becoming well rounded young people prepared for the world beyond Year 11.

I would like to take this opportunity to wish every student in Year 11 all the very best – work hard Year 11, good luck to you all!
