Answer all questions.

1. Name **four** *ICT devices* and **tick (✓)** the correct box to show whether the device is suitable for either *Input* or *Output*. [8]

ICT Device	Input	Output
.....	<input type="checkbox"/>	<input type="checkbox"/>
.....	<input type="checkbox"/>	<input type="checkbox"/>
.....	<input type="checkbox"/>	<input type="checkbox"/>
.....	<input type="checkbox"/>	<input type="checkbox"/>

2. (a) Draw a diagram for each of the following network topologies.

(i) Star [1]

(ii) Ring [1]

(iii) Name and draw a diagram of a different network topology and label any hardware. [4]

Name:

(b) State what **LAN** and **WAN** stand for:

LAN: [1]

WAN: [1]

(c) (i) Give **three advantages** of networked computers over standalone computers. [3]

Advantage 1:

.....
.....

Advantage 2:

.....
.....

Advantage 3:

.....
.....

(ii) Give **two disadvantages** of networked computers over standalone computers. [2]

Disadvantage 1:

.....
.....

Disadvantage 2:

.....
.....

(d) Explain how data is transmitted using packet switching. [3]

.....
.....
.....
.....
.....

5. Access to a building is controlled using an automatic car park barrier. Cars can only enter the car park if the system allows them to do so.

(a) Give a suitable device or sensor which could be used for input in this control system. [1]

.....

(b) Give a suitable output device which could be used in this control system. [1]

.....

(c) Describe how the devices or sensor you have named above are used in this automatic car park barrier system. [3]

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(d) Some ICT control systems use 'feedback'. Explain what is meant by feedback in a control system. [1]

.....
.....
.....
.....

6. Physical methods and software methods are used to secure data in a computer system.

Give **two** physical and **two** software methods of securing data.

[4]

Physical method 1:

.....

Physical method 2:

.....

Software method 1:

.....

Software method 2:

.....

7. Different types of *Human-Computer Interfaces (HCI)* are used in ICT systems.

Give **two different** advantages and **one different** disadvantage for each of the following HCIs.

Biometrics

[3]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Graphical user interface

[3]

Dotted lines for writing.

Command line interface

[3]

Dotted lines for writing.

8. Two of the most widely used image formats are JPEG and GIF.

(a) Give **two** advantages of storing an image as a JPEG. [2]

Advantage 1:

.....
.....

Advantage 2:

.....
.....

(b) Give **two different** advantages of storing an image as a GIF. [2]

Advantage 1:

.....
.....

Advantage 2:

.....
.....

9. Health and safety regulations in the workplace ensure employees are able to use their ICT equipment safely and avoid injury.

Give **four** safety measures an employer should put in place to safeguard their employees when using ICT equipment. [4]

Safety measure 1:

.....

Safety measure 2:

.....

Safety measure 3:

.....

Safety measure 4:

.....

10. Jonah's design company are considering allowing their employees to telework.

Give **four** advantages that teleworking gives Jonah's *company*.

[4]

11. Describe a payroll application that you have studied.

Your answer should refer to:

- how data is captured
- the most suitable processing method and why it is the most suitable
- the documents output
- the two types of files used by the payroll application
- the same fields used in both files and one additional field
- a suitable back-up system for the payroll application.

[11 QWC]

Remember that the quality of written communication will be assessed in this question.
