# 'spam'

You've received it, you don't want it, you don't understand who it's from or what it's about.
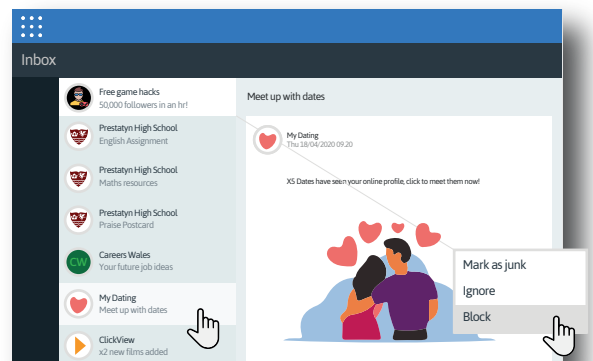

If you are getting emails in your inbox that you don't want, you have a few options.

Simply right click the message and choose one of the following: -
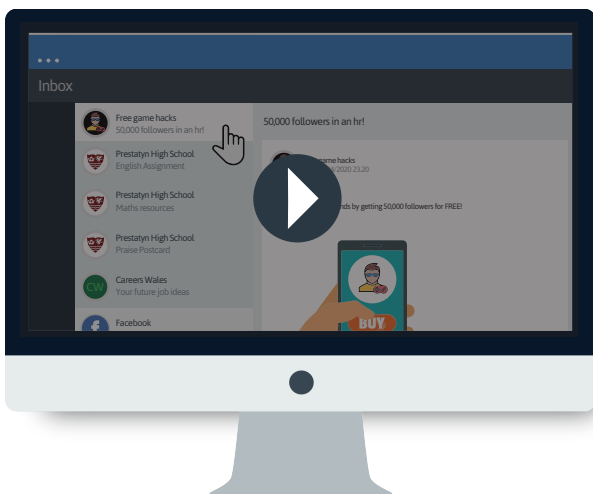

Mark as junk

Ignore

Block

Mark as junk > Moves incoming messages based on similar criteria to your junk. Junk messages will be filtered automatically if they look suspicious.

Ignore > This will move the entire conversation to your deleted items including responses from others.

! If you are getting emails you think should be blocked for the whole school, please talk with your Head of Year.

Block > This will add the individual sender address to your Blocked Senders list and begin filtering messages from this sender so you will no longer receive email from them.

'phishing'
Phishing for passwords

This is where an email is impersonating a service you know and trust, usually informing you of some kind of technical upgrade or asking for your login details.

Please, never give your password to anyone online, and if you have reason to think it may have been compromised, tell us immediately.

! Don't click on spam links
! Don't input your password or email address from an email link

ⓘ Phising emails often contain small errors such as spelling, fonts or stretched logos

'419s'

Advance-fee frauds or 419s
Something for nothing?

> ## Pardon me for not having the pleasure of knowing your mindset before making you this offer and it is utterly genuine and confidential by…

Gaming
Dating
Job scams
Grants
Lottery scams
Inheritance and bank scams

Usually victims are lured with the offer of something for free, providing an up-front fee is paid.

If something is too good to be true, then its more than likely a scam.
