Non-exam assessment

Risk management process

This editable template examines potential risks and issues relating to the implementation of non-exam assessment for and how these might be managed and mitigated through forward planning and remedial actions.

Using the risk management process template

The list of possible risks and issues featured in this template is purely illustrative for individual centres or consortia to consider and adapt to their own needs and there are blank rows under each heading for you to fill in.

A blank column entitled 'Staff' has been included on the template, so centres/consortia can list the person (or role):

- **Responsible** for the risk/issue
- **Accountable** for the risk/issue
- who should be **Consulted** about this risk/issue
- who should be **Informed** should the risk/issue arise.

In the template the above is referred to as RACI.

Any adapted list of risks and issues should be reviewed and approved by appropriate members of the senior leadership team to ensure that it is fit for purpose and compatible with the existing policies and procedures of the centre or consortium. The review should be repeated at regular intervals and kept up to date.
